

PROPITEER CAPITAL PLC

(Incorporated in England and Wales with company number 12101322)

£500,000,000

Secured limited recourse fixed rate registered bond programme

Under the £500,000,000 secured limited recourse fixed rate bond programme (the "**Programme**"), Propiteer Capital PLC (the "**Issuer**") subject to compliance with all relevant laws, regulations and directives, may from time to time issue secured bonds ("**Bonds**"), which expression shall, unless the context demands otherwise, include any principal receipts and interest coupons appertaining thereto on the terms set out herein, as completed by final terms (each, "**Final Terms**"). The aggregate principal amount of Bonds outstanding will not at any time exceed £500,000,000 (or the equivalent in other currencies).

This base prospectus dated 11 October 2023, as supplemented from time to time (the "**Base Prospectus**") constitutes a base prospectus within the meaning of Article 8 of Regulation (EU) 2017/1129, as amended (the "**Prospectus Regulation**") and has been drawn up in accordance with Annexes 9, 15 and 19 of Commission Delegated Regulation (EU) 2019/980, as amended. This Base Prospectus has been approved by the Austrian Financial Market Authority (*Finanzmarktaufsichtsbehörde* - the "**FMA**") in its capacity as competent authority pursuant to Article 20 of the Prospectus Regulation in conjunction with the Austrian Capital Market Act 2019 (*Kapitalmarktgesetz 2019*). **The FMA only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of the Issuer and the quality of the Bonds that are the subject of this Base Prospectus. Investors should make their own assessment as to the suitability of investing in the Bonds.**

This Prospectus has been prepared to admit Bonds issued under the Programme to trading on a regulated market (i.e. Official Market (*Amtlicher Handel*) of the Vienna Stock Exchange (*Wiener Börse*) or on the regulated market of the Luxembourg Stock Exchange (*Bourse de Luxembourg*), which are regulated markets for the purposes of MiFID II (each a "**Market**") in accordance with Article 3(3) of the Prospectus Regulation and on the basis that any Bonds with a minimum denomination of less than € 100,000 (or equivalent in another currency) will (i) only be admitted to trading on an EEA regulated market (as defined in the Directive 2014/65/EU, as amended (*Markets in Financial Instruments Directive II – "MiFID II"*)), or a specific segment of an EEA regulated market, to which only qualified investors (as defined in the Prospectus Regulation) can have access (in which case they shall not be offered or sold to non-qualified investors) or (ii) only be offered to the public in an EEA member state pursuant to an exemption under Article 1(4) of the Prospectus Regulation. Furthermore, application may also be made for the Programme and/or the Bonds to be included in the specific segment of the Vienna MTF, to which only qualified investors can have access, of the Vienna Stock Exchange ("**Vienna MTF**") which is a multilateral trading facility (MTF). The relevant Final Terms in respect of the issue of any Bonds will specify whether such Bonds will be admitted to trading on the Market or included in the Vienna MTF.

The Issuer has requested the FMA to provide the competent authority of the Grand Duchy of Luxembourg with a certificate of approval attesting that this Base Prospectus has been drawn up in accordance with the Prospectus Regulation. The Issuer may from time to time request the FMA to provide to competent authorities of member states of the European Economic Area ("**EEA**") further notifications concerning the approval of this Base Prospectus.

Bonds will be issued in series (each a "**Series**") and each Series may comprise one or more tranches (each a "**Tranche**"). Each Tranche of Bonds will be in the form of a global Bond in registered form (a "**Global Registered Bond**"), in each case as specified in the relevant Final Terms. In relation to any Series or Tranche of Bonds which is the subject of Final Terms, this Base Prospectus must be read and construed together with the relevant Final Terms. Each Series or Tranche of Bonds will be issued on the terms set out herein under "**Terms and Conditions of the Bonds**" (the "**Conditions**") as completed by the Final Terms to such Series or Tranche of Bonds.

Series of Bonds issued under the Programme may be rated or unrated by any or all of Moody's Investors Service Ltd ("**Moody's**"), Fitch Ratings Limited ("**Fitch**") or Standard & Poor Credit Market Services Europe Limited ("**Standard & Poor's**"). Each of Moody's, Fitch and Standard & Poor's is established in the European Economic Area ("**EEA**") and registered under Regulation (EC) No 1060/2009, as amended (the "**CRA Regulation**") and is included in the list of credit rating agencies published by the European Securities and Markets Authority ("**ESMA**") on their website. Where a Series of Bonds is rated, such rating will not necessarily be the same as the rating(s) assigned to Bonds already issued. Where a Series of Bonds is rated, the applicable rating(s) will be specified in the relevant Final Terms.

Investing in Bonds issued under the Programme involves certain risks. The principal risk factors that may affect the ability of the Issuer to fulfil its respective obligations under the Bonds are discussed under "**Risk Factors**" below.

This Base Prospectus is valid for 12 months after its approval, being 14 October 2024. The obligation by the Issuer to supplement this Base Prospectus in the event of significant new factors, material mistakes or material inaccuracies does not apply when this Base Prospectus is no longer valid.

RESPONSIBILITY STATEMENT

The Issuer, with its registered office at Olivers Barn, Maldon Road, Witham, Essex CM8 3HY, United Kingdom is responsible for the information given in this Base Prospectus.

The Issuer hereby declares that, to the best of the knowledge of the Issuer, the information contained in this Base Prospectus is in accordance with the facts and makes no omission likely to affect its import.

THIRD PARTY INFORMATION

Where information has been sourced from a third party, the Issuer confirms that this information has been accurately reproduced and that, so far as the Issuer is aware and able to ascertain from information published by such third party, no facts have been omitted which would render the reproduced information inaccurate or misleading. Where such information is being reproduced it is stated to be so in this document.

NOTICES

This Base Prospectus should be read and understood in conjunction with any supplement hereto and with any document incorporated herein by reference. Full information on the Issuer and any Tranche of Bonds is only available on the basis of the combination of this Base Prospectus and the relevant Final Terms.

Prospective holders of Bonds (the "**Bondholders**") should note that the tax legislation of the investor's member state and of the Issuer's country of incorporation may have an impact on the income received from Bonds. Prospective Bondholders should consult their tax advisers as to the relevant tax consequences of the ownership and disposition of Bonds.

The Issuer will use the proceeds of each Tranche of Bonds to procure a series or portfolio of loans ("**Borrower Loans**") (which will already be in existence on the issue date of the relevant Tranche) secured by a charge on real estate or other tangible assets (the "**Collateral**"). In turn, each Tranche of Bonds will be secured by way of an assignment of the Issuer's rights under any agreement by which the Issuer holds the Collateral in respect of the relevant Tranche, and such security interest shall be dealt with and held by the Trustee under the Security Trust Deed (as defined in "**Terms and Conditions of the Bonds**"), together with security over such Collateral as may be described in the relevant Final Terms.

Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Bonds has led to the conclusion that: (i) the target market for the Bonds is eligible counterparties and professional clients as defined in MiFID II and (ii) all channels for distribution of the Bonds are appropriate. Any person subsequently offering, selling or recommending the Bonds (a "**distributor**") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Bonds (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable. For the purposes of this provision, the expression "manufacturer" means the Dealer.

Payments in respect of the Bonds comprising each Series will be made without withholding or deduction for or on account of any taxes unless required by law. The Issuer will not be obliged to gross up payments in respect of the Bonds and any imposition of withholding taxes on payments in respect thereof may lead to redemption of Bonds. See "**Terms and Conditions of the Bonds**".

The Bonds will be obligations solely of the Issuer and will not be guaranteed by, or be the responsibility of, any other entity.

Bonds may be sold from time to time by the Issuer to any entity appointed from time to time as a dealer (the "**Dealers**").

No person has been authorised to give any information or to make any representation other than those contained in this Base Prospectus and in the relevant Final Terms in connection with the issue or sale of a Tranche of Bonds and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer. Neither the delivery of this Base Prospectus nor any sale made in connection herewith shall, under any circumstances, create any implication that there has been no change in the affairs of the Issuer since the date hereof or the date upon which this Base Prospectus has been most recently amended or supplemented or that there has been no adverse change in the financial position of the Issuer since the date hereof or the date upon which

this Base Prospectus has been most recently amended or supplemented or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

*The distribution of this Base Prospectus and the offering or sale of Bonds in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus comes are required by the Issuer and the Dealers (if any have been appointed) to inform themselves about and to observe any such restriction. The Bonds have not been and will not be registered under the US Securities Act of 1933, as amended (the "**Securities Act**"), or with any securities regulatory authority of any state or other jurisdiction of the United States. The Issuer has not registered and will not register under the US Investment Company Act of 1940, as amended (the "**Investment Company Act**"). Subject to certain exceptions, the Bonds may not be offered, sold or, for the account or benefit of, US persons (as defined in Regulation S under the Securities Act ("**Regulation S**")). For a description of certain restrictions on offers and sales of Bonds and on distribution of this Base Prospectus, see "**Subscription and Sale**".*

This Base Prospectus does not constitute an offer of, or an invitation by or on behalf of the Issuer or the Dealers (if any have been appointed) to subscribe for, or purchase, any Bonds.

In relation to any Tranche of Bonds which is the subject of Final Terms, this Base Prospectus must be read and construed together with the relevant Final Terms.

Purchasers of Bonds should conduct such independent investigation and analysis regarding the Issuer, the security arrangements and the Bonds as they consider appropriate to evaluate the merits and risks of an investment in the Bonds. None of the Dealers (if any have been appointed) makes any representation, recommendation or warranty, express or implied, regarding the accuracy, adequacy, reasonableness or completeness of the information contained herein or in any further information, notice or other document which may at any time be supplied in connection with the Bonds and none of them accepts any responsibility or liability therefor. None of the Dealers (if any have been appointed) undertakes to review the financial condition or affairs of the Issuer during the life of the arrangements contemplated by this Base Prospectus nor to advise any investor or potential investor in the Bonds of any information coming to the attention of any of the Dealers (if any have been appointed).

If you are in any doubt about the contents of this document you should consult your stockbroker, bank manager, solicitor, accountant or other financial adviser. It should be remembered that the price of securities and the income from them can go down as well as up.

Any entity or individual intending to invest in any investment described in this document should consult its, his or her professional adviser and ensure that it, he or she fully understands all the risks associated with making such an investment and has sufficient financial resources to sustain any loss that may arise from it.

*In this Base Prospectus, unless otherwise specified or the context otherwise requires, references to a "**Member State**" are references to a Member State of the European Economic Area, references to "**pounds sterling**" or "**sterling**" and "**£**" are to the lawful currency of the United Kingdom, references to "**US\$**" and "**US dollars**" are to United States of America dollars and references to "**€**" and "**euro**" are to the currency introduced from the third stage of European economic and monetary union pursuant to the Treaty establishing the European Community, as amended by the Treaty of the European Union.*

Accounting Standards of the Audited Financial Statements as of 30 June 2021 and the Audited Financial Statements as of 30 June 2022

The financial information of the Issuer included in this Base Prospectus has not been prepared in accordance with Regulation (EC) No 1606/2002 as adopted by the Union and there may be material differences in the financial information of the Issuer had Regulation (EC) No 1606/2002 been applied to the historical financial information of the Issuer.

Narrative Description of the Differences of the Accounting Standards

The financial information of the Issuer included in this Base Prospectus has been prepared under the United Kingdom standard FRS 102 but the Issuer has not taken advantage of certain reduced disclosure obligations allowed for small companies under FRS 102, so the statements required in accordance with IFRS on profit and loss, cash flow and changes in equity which form part of the

Audited Financial Statements as of 30 June 2021 and 2022 are prepared in line with IFRS. As such where, for relevant items, the accounting treatment of items could differ in the Issuer's financial statements under FRS 102 and IFRS, the actual treatment means they do not differ. The Issuer has taken advantage of an exemption available under FRS 102 (section 33.1A) from the requirement to disclose transactions with wholly owned members of the group. It is the professional opinion of the Issuer and the Issuer's auditor AGK Partners that the Issuer's financial statements thus prepared are not materially different from financial statements prepared in accordance with Regulation (EC) No 1606/2002 as adopted by the Union. However, the European Commission has not yet taken a decision on whether equivalency status shall be granted.

For the avoidance of doubt, such parts of the Audited Financial Statements as of 30 June 2020 and 2021 respectively which are not explicitly listed in the tables above, are not incorporated by reference into this Base Prospectus as these parts are either not relevant for the investor or covered elsewhere in this Base Prospectus.

Any information not listed above but included in the documents incorporated by reference is given for information purposes only.

Such parts of the documents which are explicitly listed above shall be deemed to be incorporated in, and form part of this Base Prospectus, save that any statement contained in such a document shall be deemed to be modified or superseded for the purpose of this Base Prospectus to the extent that a statement contained in this Base Prospectus modifies or supersedes such earlier statement (whether expressly, by implication or otherwise). Any statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this Base Prospectus.

RISK FACTORS

RISKS RELATING TO THE ISSUER

Prospective investors should consider carefully the risks set forth below and the other information contained in this Base Prospectus prior to making any investment decision with respect to any Bonds. Prospective investors should note that the risks described below are not the only risks the Issuer faces. The Issuer has described only those risks relating to its business, operations, financial condition or prospects that it considers to be material and specific and of which it is currently aware. There may be additional risks that the Issuer currently considers not to be material and specific or of which it is not currently aware, and any of these risks could have the effects set forth above.

Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and should consult with their own professional advisers (including their financial, accounting, legal and tax advisers) and reach their own views prior to making any investment decision.

Each of the Issuer related risks highlighted below could have a material adverse effect on the Issuer's business, operations, financial condition or prospects which, in turn, could have a material adverse effect on the amount of principal and interest (if applicable) which investors will receive in respect of any Bonds. In addition, each of the Issuer related risks highlighted below could adversely affect the trading price of the Bonds or the rights of investors under the Bonds and, as a result, investors could lose some or all of their investment.

The Issuer believes that the following factors may affect its ability to fulfil its obligations under the Bonds. Most of these factors are contingencies which may or may not occur. Below the Issuer expresses its view on the likelihood of any such contingency occurring as of the date of this Base Prospectus.

The Issuer believes that the factors described below represent the principal risks inherent in investing in the Bonds, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with any Bonds may occur for other reasons which may not be considered significant risks by the Issuer based on information currently available to it or which it may not currently be able to anticipate.

The risk factors herein are organised into the following categories below depending on their nature (with the most material risk factor mentioned first in each of the following categories):

Risks relating to the Issuer's business

The Issuer's business carries an inherent risk that it is reliant on underlying borrower solvency and asset availability

The investment objective in respect of each Tranche of Bonds issued is to be achieved through the use of the proceeds by the Issuer. The Issuer will use the proceeds of each Tranche of Bonds issued to enter into Borrower Loans (by way of the acquisition of pre-existing loan portfolios) with principal and interest payments made from Borrowers under the Borrower Loans intended to generate sufficient funds to enable the Issuer to satisfy its payment obligations under each relevant Series and Tranche of Bonds issued.

Before any portfolio of Borrower Loans is acquired all cases will go through a strict review and assessment process, which will be carried out by the Collateral Manager, on behalf of the Issuer, but there is a risk in any such activity that information could be missed and the underlying loan portfolio could fail and cause a shortfall in the sums required to make coupon payments or the repayment of the principal sums. Monitoring checks will include but is not limited to financial analysis, market analysis and a full individual analysis. The Collateral Manager, on behalf of the Issuer, will monitor loans on an ongoing basis to make sure the credit risk remains within acceptable limits, but there are inherent risks in such business activities that failure could occur. In the event that there is a default by a Borrower, the liability for the repayment of the Bonds by the Issuer remains, but the ability to make such payments may be impacted, so the Bondholders are indirectly dependent on the performance of all Borrower Loans. If such an event of default were to occur then the Bondholders could suffer a delay in repayments, or a partial loss or complete loss of the investment.

Risks relating to the credit risk of the Issuer

The Issuer's business carries an inherent risk that it is reliant on underlying borrower creditworthiness

The Issuer has no material assets with the exception of the security taken over assets relating to or secured against the underlying Borrower Loans and the receivables in relation to those loans. Payments made in respect of each Tranche of Bonds will come entirely from payments in relation to the Borrower Loans. In the event that the Borrower Loans fail and there is an Event of Default on a loan, there is a risk that the Issuer will not be able to fulfil its contractual repayment obligation and to factually make payments that fall due, and so the Bondholders could suffer a partial or total loss against their investment as the Issuer could become insolvent. If there is a default by the Issuer on its obligations to Bondholders, then there is also a risk that there would be a significant delay to any repayments as the provisions of the Collateral Security and any potential insolvency action would take time.

The Issuer will use the net proceeds from Bonds issued to enter into Borrower Loans (by way of the acquisition of pre-existing loan portfolios) and there is credit risk inherent in any such loan activity. If a Borrower is unable to make payments, or if the assets which secure the underlying loans fail, then there is a risk that the Issuer cannot fulfil its contractual repayment obligation and factual payments cannot be made to Bondholders. Any adverse changes in credit quality and loan recoverability could affect the Issuer's ability to make sufficient payments to satisfy its own payment obligations to the Bondholders and so the Bondholders could suffer a partial or total loss against their investment as the Issuer could become insolvent.

Loss of value of the collateral against which borrower loans are secured

In the event of a fall in real estate or asset values, there is a risk that the overall value of the security against which the bonds are secured could fall and could lead to greater exposure and ultimately a lack of assets to be realised to pay the bond redemptions and so the Bondholders could suffer a partial or total loss against their investment as the Issuer could become insolvent.

Since no revaluation of the value of the security against which the bonds are secured will be carried out prior to the acquisition of the portfolio of Borrower Loans, it is possible that the underlying collateral asset value could be lower than originally valued at the time of their acquisition. If so then there may not be sufficient income arising to the Issuer and so the Bondholders could suffer a partial or total loss against their investment as the Issuer could become insolvent.

A downturn in business condition or the general economy in the UK may adversely affect all aspects of the Issuer's business

The Borrower assets which will be subject to the Borrower Security will mainly be located in the UK and as such the geographical concentration of credit risk is mainly centred on the UK making the Issuer sensitive to adverse changes in the UK economy, which could impact on the value of the security taken as part of Borrower Security. In particular, the rising interest rates in the world, continued rising inflation and the war in Ukraine and its continued impact on raw material prices, may cause issues with the UK economy and slower growth or even lead to a recession which may impact real estate and asset prices and reduce the value of security available. Such decreases in value of security could have an impact on the Issuer's ability to make payments to the Bondholders.

The Issuer would not consider financing assets in which the repayment of the loan was not already identified, however, changes may occur to a borrower's business or the wider economic climate that could cause repayments to not be met and so the Bondholders could suffer a partial or total loss against their investment as the Issuer could become insolvent.

Changes and mismatches in interest rates may adversely impact on the Issuer's revenue and/or profits

A substantial fall in the general cost of lending in the UK may adversely impact the availability of Borrower Loans and thus the Issuer's ability to fulfil its contractual repayment obligation and to factually make payments to Bondholders. If such an event of default were to occur then the Bondholders could suffer a delay in repayments, or a partial loss or complete loss of the investment.

Possible exposure of the Issuer to fraud

The Issuer is exposed to possible fraud by Borrowers, purported Borrowers, their professional advisors such as solicitors, accountants or valuers as well as by employees. Attempted fraud typically involves Borrowers either acting alone or in concert with professional advisors, seeking to obtain

funds by adopting a false identity or using a false inflated property valuation or purporting to own a property or seeking a release of security without redeeming the underlying loan. In addition, solicitors could abscond with completion monies. If such an event of default were to occur then the Bondholders could suffer a delay in repayments, or a partial loss or complete loss of the investment.

The Issuer may experience severe economic disruptions, as those for instance are induced by the worldwide corona virus (COVID-19) pandemic, which may have significant negative effects on the Issuer and its clients.

The Issuer is exposed to multiple risks in relation to a worldwide pandemic (such as that caused by the corona virus SARS-CoV-2 ("COVID-19")) and the measures taken by sovereigns, companies and others to prevent the spread of such an infection. The Issuer's portfolio quality could suffer or deteriorate, and non-performing loans may increase if respective loan moratoria regulations are lifted. If the economic conditions worsen beyond the level foreseen, this could result in credit losses exceeding the amount of any loan loss provisions and so the Bondholders could suffer a partial or total loss against their investment as the Issuer could become insolvent.

Risk relating to fluctuations or differences between jurisdictions

The Issuer mainly operates in the UK, and there is a risk that the activities and the rules relating to the underlying business and methods of taking security over the Borrower Loan portfolios will be unfamiliar to investors. In this regard, the laws of England may be less favourable or less fair to investors' interests than the laws of Austria, including the fact that English Law has a limitation of liability period for claims at a maximum of 15 years (being the longest period for claims involving deeds) compared to 30 years in Austria, which could mean that certain claims are time barred in the United Kingdom which would not have been in Austria.

RISK RELATING TO THE COLLATERAL MANAGER

The failure to attract, retain or replace senior management and skilled personnel could have a detrimental impact on the Collateral Manager's business

Under the terms of the Collateral Management Agreement the Collateral Manager has agreed to appoint senior management and skilled employees to act as its Credit Committee, with experience relevant to the proposed business, and whilst they will be in place at the outset of the Programme, the Issuer's ability to ensure that it can fulfil its obligations under the Bonds is dependent on the Collateral Manager's ability to recruit, retain and develop appropriately skilled, competent people to assess the Borrower Loans proposed to be procured and to approve the procurement of such Borrower Loans. If the Credit Committee is not able successfully assess credit risk of Borrowers and the Borrower Loans proposed to be procured, then it may not be able to sustain its business as anticipated as it will not be able to obtain a sufficient pool of Borrower Loans to generate sufficient revenue to fulfil its contractual repayment obligation and to factually make coupon payments and so the Bondholders could suffer a partial or total loss against their investment as the Issuer could become insolvent.

There is a risk that the Issuer's activities could become regulated activities, which would materially impact on costs

The Issuer primarily operates within the United Kingdom and the relevant legislation within the United Kingdom, being section 19 of the Financial Services and Markets Act 2000 provides that a person must not carry on a regulated activity in the UK, or purport to do so, unless he is an authorised or an exempt person. As at the date of the Base Prospectus, neither the Issuer's nor the Collateral Manager's activities constitute a regulated activity within the meaning of the Financial Services and Markets Act 2000 (Regulated Activities) Order 2001 (SI 2001/544). However, changes to the regulatory regime would have an impact with additional regulatory costs to the Issuer. The Collateral Manager will not carry out any regulated activities without becoming an authorised or an exempt person. This can result in additional financial burdens for the Issuer and could adversely affect its financial position. If such an event of default were to occur then the Bondholders could suffer a delay in receiving payments, or could suffer a partial loss or complete loss of the investment.

RISKS RELATING TO THE ISSUANCE OF BONDS

Prospective Bondholders, which are the subject of this Base Prospectus and the relevant Final Terms, should consider the following risk factors, which are specific to the Bonds and which are material for taking an informed investment decision and should make such decision only on the basis of this Base Prospectus as whole, including the relevant Final Terms.

No person should acquire Bonds without a thorough understanding of the mechanism of the relevant Bonds and without being aware of the potential risk of loss. Any prospective Bondholder should carefully examine whether an investment in the Bonds is appropriate given his or her personal circumstances and financial situation.

Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and should consult with their own professional advisers (including their financial, accounting, legal and tax advisers) and reach their own views prior to making any investment decision.

Words and expressions defined in the section entitled "Terms and Conditions of the Bonds" shall have the same meanings in this section "Risks relating to the Bonds".

The risk factors herein are organised into the following categories below depending on their nature (with the most material risk factor mentioned first in each of the following categories):

RISKS RELATED TO THE STRUCTURE OF A PARTICULAR ISSUE OF BONDS

The Bonds could be subject to optional redemption by the Issuer

An optional redemption feature is likely to limit the market value of Bonds. During any period when the Issuer may elect to redeem Bonds, the market value of those Bonds generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Bonds when the cost of borrowing is lower than the interest rate on the Bonds. At those times an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Bonds being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Notwithstanding if the Issuer exercises an early redemption right in relation to the Bonds the Bondholders are exposed to the risk that due to such early redemption their investments may have a different than expected yield and maturity.

Bonds could be issued at a substantial discount or premium

The market values of securities issued at a substantial discount (such as Zero-Coupon Bonds) or premium to their nominal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities. A Bondholder of Zero-Coupon Bonds is exposed to the risk that the market price of such Bonds falls as a result of changes in the market interest rate. Market prices of Zero-Coupon Bonds are more volatile than market prices of Fixed Rate Bonds and are likely to respond to a greater degree to market interest rate changes than interest bearing instruments with a similar maturity.

RISKS RELATING TO BONDS GENERALLY

The Bonds are not protected by the Financial Services Compensation Scheme

Unlike a bank deposit, the Bonds are not protected by the UK Financial Services Compensation Scheme (the "FSCS") or any other government savings or deposit protection scheme. As a result, the FSCS will not pay compensation to an investor in the Bonds upon the failure of the Issuer. If the Issuer goes out of business or becomes insolvent, Bondholders may lose all or part of their investment in the Bonds.

Risk relating to modification and waivers authorised by a bondholder majority

The Terms and Conditions of the Bonds contain provisions for calling meetings of Bondholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Bondholders including Bondholders who did not attend and vote at the relevant meeting and Bondholders who voted in a manner contrary to the majority.

The Terms and Conditions of the Bonds also provide that the Trustee may without the consent of the Bondholders, agree to (a) any modification of any of the provisions of the Trust Deed or the Terms and Conditions of the Bonds that is of a formal, minor or technical nature or is made to correct a manifest error, or (b) any other modification (except as mentioned in the Trust Deed), and any waiver or authorisation of any breach or proposed breach of any of the provisions of the Bonds of the Trust Deed that is in the opinion of the Trustee not materially prejudicial to the interests of the Bondholders. However, any such changes could have a negative impact on the position of the Bondholders and the Bondholders could suffer a delay in receiving payments, or could suffer a partial loss or complete loss of the investment

Risk relating to the default of the Borrower Loans

The Bondholders have security over the Issuer's assets. In the event of non-repayment of a Borrower Loan by a Borrower, there would be a default under the Borrower Loan Agreement, and the Trustee would be entitled to exercise its enforcement rights, on behalf of the Bondholders, in accordance with the Trust Deed and would apply the recovered sums towards the required interest coupon payments; and if necessary repay the principal amounts due on the Bonds themselves. This in turn means that the position of the Bondholders does not only depend on the repayment of a single Borrower Loan but also indirectly on the repayment of the remaining Borrower Loans. The default of one of the Borrower Loans that are securing another Series of Bonds can therefore have a negative impact on the position of the Bondholders.

Exchange rate risks may occur, if a Bondholder's financial activities are denominated in a currency or currency unit other than the Specified Currency in which the Issuer will make principal and interest payments or in which the Borrower Loans are concluded. Furthermore, government and monetary authorities may impose exchange controls that could adversely affect an applicable exchange rate.

The Issuer will pay principal and interest on the Bonds in the Specified Currency. This presents certain risks relating to currency conversions if a Holder's financial activities are denominated principally in a currency or currency unit ("**Holder's Currency**") other than the Specified Currency of the Bonds or of the Borrower Loans. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Holder's Currency) and the risk that authorities with jurisdiction over the Holder's Currency may impose or modify exchange controls. An appreciation in the value of the Holder's Currency relative to the Specified Currency would decrease (i) the Holder's Currency-equivalent yield on the Bonds, (ii) the Holder's Currency-equivalent value of the principal payable on the Bonds, and (iii) the Holder's Currency-equivalent market price of the Bonds. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, Bondholders may receive less interest or principal than expected, or no interest or principal.

Risks relating to receipts of payments in an event of default

Where there has been a default by a Borrower which leads to an event of default in the Issuer being able to pay the Bondholders their coupons or the principle sums, there are certain costs, such as those of solicitors, insolvency practitioners or the Courts that may rank ahead of the Bondholders. Additionally, there is a materiality threshold in the Trust Deed set at £20,000,000 in the aggregate which means that no action shall be taken, so as to reduce the costs of taking action for default and to try and maximise returns to Bondholders. In such circumstances the Bondholders could suffer a delay in receiving payments or could suffer a partial loss or complete loss of the investment.

Risks relating to changes or disparities in rates and applicability of Taxation

Prospective investors and sellers of the Bonds should be aware that they may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Bonds are transferred in Austria or the United Kingdom. Where such costs exist the Bondholders could experience a reduction in the returns received on the investment.

RISKS RELATED TO THE MARKET GENERALLY

The Bonds may not be accepted for listing on a Market and/or inclusion in the Vienna MTF of the Vienna Stock Exchange

There is a risk that the Bonds may not be accepted for listing on a Market and/or inclusion in the Vienna MTF of the Vienna Stock Exchange or that if such a listing or inclusion were obtained, that there may be circumstances which would cause the Bonds to be de-listed. This may make the bonds

less liquid or lower in value than would otherwise be the case. Therefore, the possibility of the Bondholders to sell the Bonds could be limited. If trading in Bonds is suspended, interrupted or terminated price disruptions are likely to be the consequence; for example, where trading in Bonds is suspended after price-sensitive information relating to such Bonds has been published, the market price of such Bonds may already have been adversely affected. All these risks would, if they materialise, have a material adverse effect on the Bondholders such that the Bondholders could suffer a delay in receiving payments, or could suffer a partial loss or complete loss of the investment

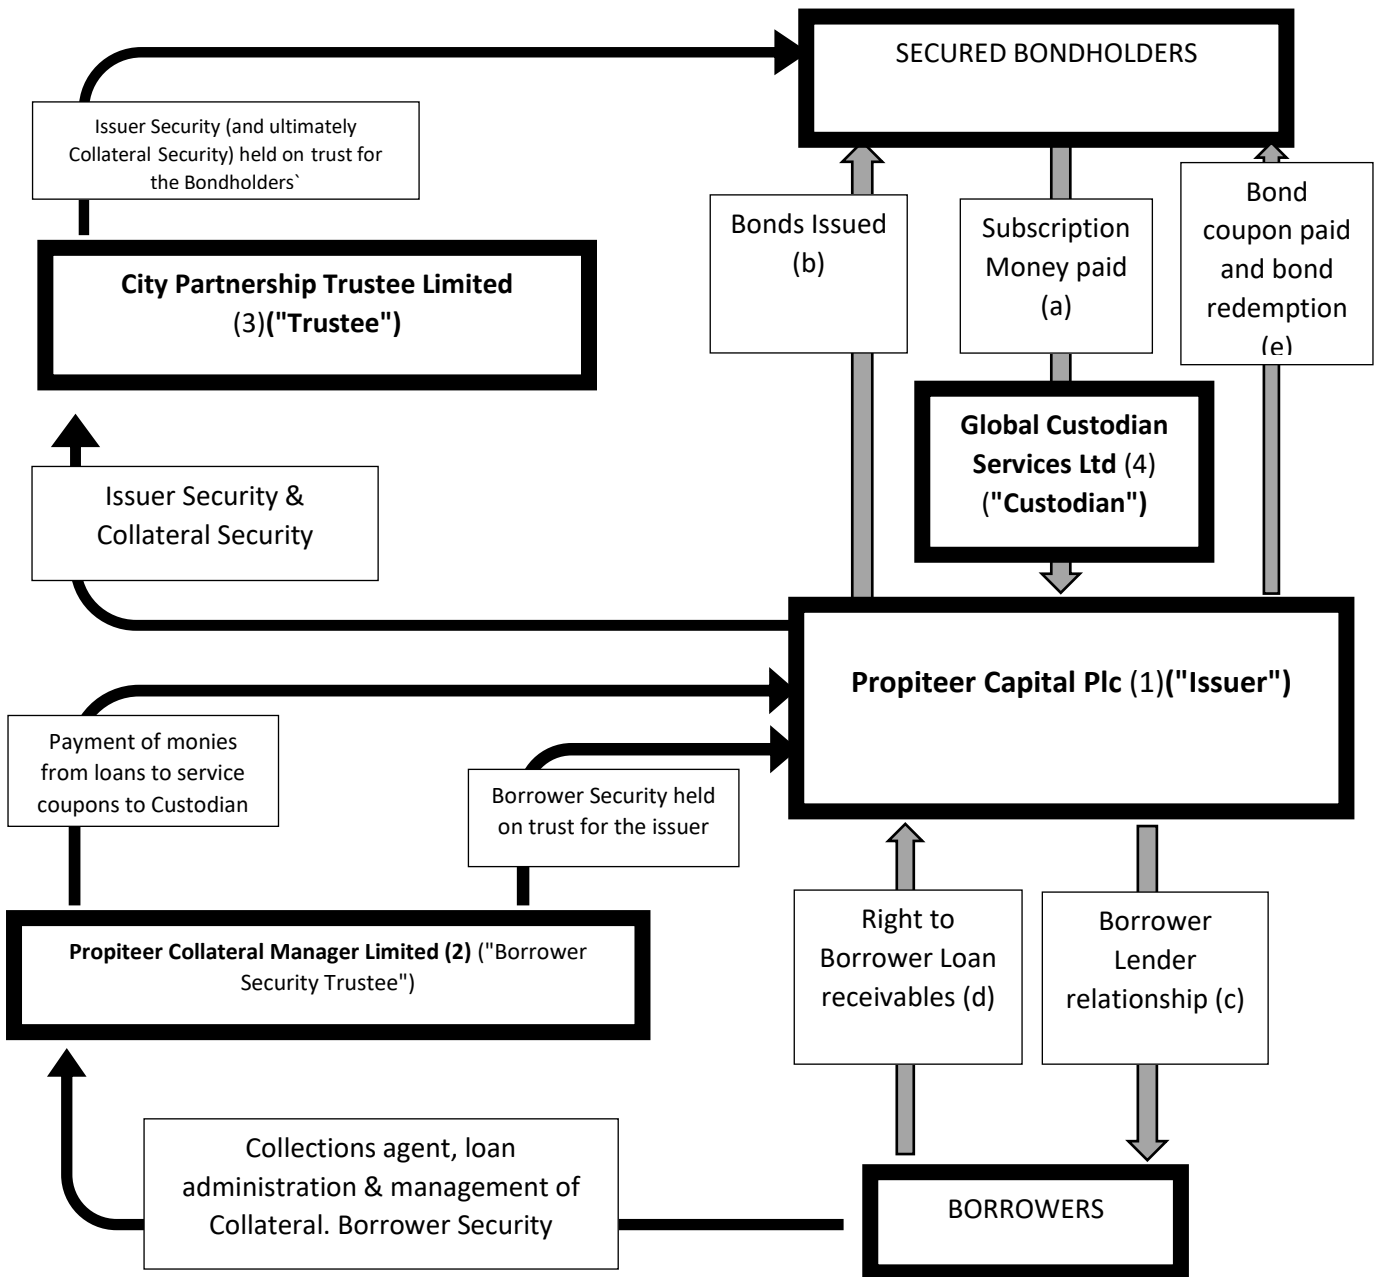

There is no established secondary market generally for the Bonds, which will limit liquidity

The Bonds have no established trading market when issued and one may never develop. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Bonds easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Bonds that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. Generally, these types of Bonds would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a material adverse effect on the market price of Bonds. In such circumstances then the Bondholders could suffer a delay in receiving payments, or could suffer a partial loss or complete loss of the investment

OVERVIEW OF THE PROGRAMME

Structure Diagram

The structure diagram below is qualified in its entirety by, the remainder of this Base Prospectus and the applicable Final Terms. Words and expressions defined elsewhere in this Base Prospectus shall have the same meaning in this structure diagram.

Parties

1. Propiteer Capital PLC – Is the Issuer of Bonds using funds received from investors to acquire Borrower Loans (which are already loaned to borrowers) with security taken over the assets of Borrowers by way of a legal charge (the "**Borrower Security**").
2. Propiteer Collateral Manager Limited – Acts on behalf of the Issuer providing an independent Credit Committee to review and assess all borrower loans within a portfolio and the security being provided. The Credit Committee is independent from the Propiteer Capital PLC and works at arms-length. The Collateral Manager also acts as a collection agent, loan administrator and manager of collateral within the portfolio.
3. City Partnership Trustee Limited – Under the Trust Deed the Trustee acts for the benefit of the Bondholders, by holding a legal charge over all of the assets of the Issuer (the "**Issuer Security**") and over the Collateral Managers assets rights and proceeds in the Custodian account (the "**Collateral Security**").
4. Global Custodian Services Ltd – Are authorised by the FCA to act as Custodian for investor funds.

Movement of Funds

- a) Investors funds are initially deposited into a Segregated custodian account with Global Custodian Services Ltd.
- b) At the point of issuing Bonds, funds are transferred from the custodian account to Propiteer Capital PLC.
- c) As Borrower Loans are already in place funds are then paid from Propiteer Capital PLC to original lenders and the Borrowers have a new lender relationship with Propiteer Capital PLC.
- d) Borrowers, as agreed in the Facility Agreements, make interest payments (and loan capital repayments) back to Propiteer Capital PLC on the agreed schedules.
- e) Propiteer Capital PLC receives monies from the Borrower Loan portfolio and makes the required interest and principle payments to Bondholders.

Security

1. All Borrower Loans have existing security in place, usually by way of a legal charge on assets.
2. Propiteer Collateral Manager Limited holds the security on Trust for the Issuer.
3. City Partnership Trustee Limited through the Trust Deed holds security over the Collateral Manager and over all and any security it holds for the benefit of Bondholders. Should an event occur where Propiteer Capital PLC or Propiteer Collateral Manager Limited are not in a position to perform then City Partnership Trustee Limited can then step in for the benefit of the Bondholders to realise the collateral secured for the Borrower Loans.

PROPITEER CAPITAL PLC

The Issuer is a public limited company registered and incorporated in England and Wales (with registration number 12101322) which is owned by Propiteer Capital Holdings Limited, but which does not have any ultimate controller. The Issuer is a special purpose vehicle set up to issue asset backed securities with the net proceeds from each issue being used to procure portfolios of Borrower Loans from Borrowers secured against the Collateral. The Issuer is a wholly owned subsidiary of Propiteer Capital Holdings Limited (an English registered company with number 12091224) which has no registrable person with significant control. Propiteer Capital Holdings Limited and the Collateral Manager have two shareholders in common, Robert Scott and Linda Scott (who hold 22% in each company) but this is not a controlling interest, they are not directors and do not have the power to appoint directors to either company. For the purposes of English Law, there are no controllers of Propiteer Capital Holdings Limited so control of the Issuer reverts to the board of directors of the Issuer and these are independent of the Collateral Manager. The Issuer will have an investment strategy focused on procuring loan facilities which have been advanced to various sized enterprises. The decision to procure loans will reside with the Credit Committee of the Collateral Manager, who will consider a variety of loan portfolio opportunities. The Collateral Manager has appointed external and independent non-executive directors, who are unconnected with the Issuer or any company linked to the Issuer or any connected party, to oversee the independence of the Credit Committee. From time to time there may be changes in the constitution of the board of the Issuer or the Collateral Manager, which will be notified to investors, but the relevant page of the Issuer's website www.pcpplc.co.uk will be maintained and up to date.

Collateral Management Agreement

In accordance with the collateral management agreement entered into between the Issuer and the Collateral Manager (the "**Collateral Management Agreement**"), the Collateral Manager will be responsible for Borrower Loan procurement through reputable introductions as well as managing the

portfolio of loans on behalf of the Issuer and providing loan administration services including acting as collections agent.

The Collateral Management Agreement will be secured by the Collateral Manager granting a legal charge over the fixed and intangible assets and/or assignment over its assets (the "**Collateral Security**"). This security will be granted in favour of the City Partnership Trustee Limited (the "**Collateral Security Trustee**").

The principal terms of the Collateral Management Agreement will be for the Collateral Manager to be paid £1,000 per Credit Committee meeting, and for the Collateral Manager to be paid a fee of 0.25% of the value of the Borrower Loan on successful procurement of a Borrower Loan and a fee of 1% on the redemption of a Borrower Loan. Default by the Collateral Manager under the Collateral Management Agreement will entitle the Trustee to enforce the Issuer Security. The Issuer shall be required to provide the Collateral Manager with 3 months' notice of termination of the Collateral Management Agreement and the Collateral Manager shall be required to provide no less than 12 months' notice after the first 12-month period. Where either the Issuer or the Collateral Manager gives notice terminating the Collateral Management Agreement, such termination shall only take effect once the Issuer has appointed a replacement collateral manager ("**Replacement Collateral Manager**") that the directors of the Issuer are of the belief has no less expertise than that of the Collateral Manager to undertake the services provided by the Collateral Manager under the Collateral Management Agreement. The replacement of the Collateral Manager will also need to be agreed to by the Bondholders, who would be provided with details of the replacement provider and would be required to pass a simple majority vote of 50% of those Bondholders voting.

Borrower Loans

The Issuer shall use the proceeds from each Tranche of Bonds to procure portfolios of loans which have already been entered into, with each pool of assets being identified prior to issuance of the relevant Tranche of Bonds and deployment taking place once drawdown of funds have been completed (each a "**Borrower Loan**" and, together, the "**Borrower Loans**") which have been advanced to borrowers (each a "**Borrower**" and, together the "**Borrowers**") meeting strict eligibility criteria pursuant to the terms of a loan agreement (each, a "**Borrower Loan Agreement**" and, together the "**Borrower Loan Agreements**"). On completion of the acquisition of a loan, the legal nature of each Borrower Loan is that of a debt obligation owed by the Borrower to the Issuer. The Borrower Loans will be secured against the Collateral which produce funds sufficient to service any payments due and payable on the Bonds issued under a particular Series of Bonds.

The proceeds applied by the Issuer to procure Borrower Loans may be sourced from proceeds relating to more than one Series of Bonds. In circumstances where the proceeds applied to acquire the relevant Borrower Loan are sourced from more than one Series of Bonds, the respective interests of each relevant Series of Bonds in the relevant Borrower Loan and the security granted by the Issuer under the Trust Deed will rank *pari passu* and pro rata according to the portion of the acquisition price funded by the relevant Series of Bonds. Additionally, any interest receivable in relation to such Borrower Loans shall be split pro rata and applied to such Series of Bonds which have acquired such Borrower Loans in the relevant proportions that they have funded the acquisitions.

Each Borrower Loan Agreement will contain customary representations and warranties from the Borrower to the Issuer, including without limitation, representations and warranties as to the due incorporation of the Borrower, the power of the Borrower to enter into the Borrower Loan Agreement, that the Borrower has all necessary authorisations to enter into the Borrower Loan Agreement and that such entry will not contravene any other obligations of that Borrower, that the Borrower has all necessary authorisations to enter into the Borrower Loan Agreement and that such entry will not contravene any other obligations of that Borrower, that the Borrower is not required to make any deductions of tax, that the Borrower Loan Agreement is enforceable under English law (or an equivalent), that there will be no default from the making of the Borrower Loan, that there has been no

material adverse change in the business or assets of the Borrower, that the Borrower is not subject to any material litigation, that the Borrower's obligations rank *pari passu* with all its other obligations and that the Borrower has good title to all its assets.

The Issuer will create separate Series of Bonds (and Tranches of a Series) from time to time to enable Bonds to be issued with varying terms and interest rates. Following the relevant issue date of Bonds, the Issuer will procure Borrower Loans in an aggregate principal amount equal to the amount set out in the Final Terms for such Series. Such amounts will equal the aggregate nominal amount of Bonds being issued pursuant to such Series less certain costs and expenses of the Issuer and an amount which the Issuer determines is required to be kept in cash or cash equivalents for liquidity purposes.

The Borrower Loans will broadly fall into two categories: (a) secured loans to individuals and undertakings for the purpose of commercial property acquisition or development; and (b) secured loans to small and medium sized undertakings for business purposes. It will be an obligation of the Issuer to ensure that the secured loans made for the purpose of commercial property development amount to less than 20% of the underlying loan portfolio in respect of the proceeds of each Tranche of Bonds. This requirement will be subject to ongoing testing.

In relation to the Borrower Loans, the security may take the form of tangible commercial or residential property along with other security types which will be considered including assignments of rental income relating to secured assets and debentures/deeds of charge over the entire undertaking of Borrowers where appropriate security is available.

When issuing Bonds using Final Terms, in the event that Borrower Loans are secured on or backed by real property, the relevant valuation of the properties for the purpose of the issue and the valuations quoted shall be as at the date of the original loan agreement which has been acquired by the Issuer, unless the Credit Committee require otherwise. The Collateral Manager's due diligence for each Borrower Loan, on behalf of the Issuer, will follow the following process:

1. Review valuation or appraisal of the security being offered from approved panel of valuation agents, all with appropriate professional indemnity insurance. The Collateral Manager may consider other Royal Institution of Chartered Surveyors ("RICS") valuations from other specialist valuers where specific real estate asset classes require additional expertise;
2. Obtain credit check / reference on the Borrower and assets held;
3. Obtain personal guarantees from the directors of the corporate Borrower if the Credit Committee requires;
4. Undertake all the required know-your-client and anti-money laundering checks on Borrower;
5. Understand the Borrower's existing finance arrangements and check track record if there is a proposed development loan;
6. Approval from the Credit Committee;
7. Agree terms with the Borrower, and
8. Solicitors (with expertise in real estate finance) instructed to prepare the loan and charge documents and check the Collateral is suitable for lending purposes.

There will be more than five Borrowers who will provide the security for each Series of Bonds and the principal amount of each Borrower Loan will not account for 20% or more of the aggregate principal amount of all Borrower Loans outstanding per Series of Bonds. Each payment due under the Borrower Loan Agreement will be collected by the Collateral Manager, on behalf of the Issuer, and paid into the Collateral Manager Custodian Account, an account opened by the Collateral Manager with the Custodian and over which security is granted by the Collateral Manager in favour of the Collateral Security Trustee.

Substitution of Borrower Loans

Where there is an issue with a Borrower Loan, the Issuer will task the Credit Committee (via the Collateral Manager) with finding alternative Borrower Loans in order to comply with the Borrower Loan Eligibility Criteria (as defined below) or satisfy the minimum diversification criteria. In compliance with the Borrower Loan Eligibility Criteria, the Borrower Loans cannot be substituted with a different class or quality of assets. Where there is such a substitution, there should be a corresponding improvement in the portfolio of Borrower Loans as it will enhance the returns available in the portfolio by replacing an underperforming loan with a performing loan which can make interest payments.

Worked Example

Whilst the rest of this Base Prospectus sets out background to the Programme, the following is a worked example and summary of the type of loan portfolio of Borrower Loans, which will be procured by the Issuer from the funds raised from the first Tranche of Bonds issued.

The Issuer issues Final Terms for a Series under the Programme, called "**Propiteer Capital Series *Bonds**" (where * will denote the number of the Series). In this example the Propiteer Capital Series "1" Bonds will pay a fixed coupon of 12% per annum, quarterly and will mature in two years. The example assumes the Bonds have a first coupon payment due two months after the Bonds were issued.

This Series will raise £1,500,000. The cost of the issuance will be £150,000, which are constituted by legal fees, accounting fees, listing fees, broker fees and administrative costs. The net proceeds of the Series will be £1,350,000. The Issuer will transfer this amount to the Collateral Manager under the terms of the Collateral Management Agreement, who has arranged a portfolio of Borrower Loans in that amount, consisting of 6 separate loans as set out in detail below. Once all costs and fees relating to the Borrower Loans, plus the interest payable and the principle sums are collated, they cover all potential sums due to the Bondholders for both principle and coupon payments, plus a margin to cover the operational costs of the Issuer, which can instead be distributed to Bondholders in the event of a shortfall arising from a default.

The Borrower Loans are property investment loans. Each Borrower Loan will meet the Borrower Loan Eligibility Criteria and security will have been taken and as part of the arrangements the Trustee will take control of the Security in favour of the Issuer and the Bondholders.

* Cost Contribution means a contribution towards the legal costs of the Issuer in connection with the loan and security documentation.

** Exit Fee means a fee payable by the Borrower in relation to the redemption of a Borrower Loan.

The monthly interest payments for each Borrower Loan are collected and administered by the Collateral Manager, on behalf of the Issuer. Sums are remitted to the Custodian to cover the required coupon payment in accordance with the Conditions and are paid by the Paying Agent on the relevant Interest Payment Date under the Bonds.

The below portfolio analysis sets out the fact that the balance of monies loaned compared to security means that the Bonds are fully collateralised. It also demonstrates that the required payments due under the Bonds are more than sufficiently covered by the income received from the portfolio of Borrower Loans, even in the event of a default by a third of the portfolio, which given the due diligence is considered most unlikely.

Portfolio Analysis

| | |
|--|------------|
| Total Borrower Loan portfolio (total of Borrower Loans): | £1,350,000 |
| Total asset valued secured (total value of assets): | £2,395,000 |

| | |
|---|--------------------|
| Total exposure: | 56% loan-to-value* |
| Maximum single loan percentage (loan to value): | 69%** |
| Total principal amount of Bonds for Series * Bonds: | £1,500,000 |
| Coupon payment required for Bonds per month (accrued and payable quarterly): | £15,000 |
| Monthly income received from Borrower Loan repayments on Borrower Loan portfolio: | £25,221 |
| Total income on portfolio to Maturity (interest, administration fee, arrangement fee, cost contribution and exit fee, but excluding principle sum): | £732,804 |
| Total principle sum advanced: | £1,350,000 |
| Total required payments to Bondholders (coupon and principle) | £1,860,000 |

* 56% loan-to-value was calculated as the total exposure to principle loan sums outstanding against the total value of assets secured against those loans (1,350,000 / 2,395,000).

** 69% maximum single loan percentage (loan to value) was calculated as the principle loan sum against the total value of assets secured against the loan of Borrower Loan 3 (173,000 / 250,000).

The Bondholders have security over the Issuer's assets (which are held on trust for the Bondholders by the Trustee). In the event of non-repayment of a Borrower Loan by a Borrower, there would be a default under the Borrower Loan Agreement, and the Trustee would be entitled to exercise its enforcement rights, on behalf of the Bondholders, in accordance with the Trust Deed and would apply the recovered sums towards the required interest coupon payments; and if necessary repay the principal amounts due on the Bonds themselves. As can be seen above, the Bonds will be fully collateralised by the fact that the underlying Borrower Loan portfolio procured will have a loan-to-value limit exposure of 59%. Thus, full recovery would be expected even if there was significant default of over half the portfolio; which is considered most unlikely.

Stress Testing – Default Scenarios

The examples below look at a stress tested scenario regarding the default of the two larger loan-to-value Borrower Loans in the portfolio, and which have the largest loan payments, Borrower Loans 2 and 4.

Scenario 1 - If either Borrower Loans were to default, there would be a reduction in cashflow on a monthly basis, but all interest coupon payments for the Bondholders would still be paid in full. If Borrower Loan 4 were (as the highest loan payment) to default the income from the Borrower Loan portfolio would fall by £5,300 each month. Whilst this would reduce the overall income, there would still be sufficient other income to cover the required monthly coupon payments due under the Bonds.

Scenario 2 - If both Borrower Loans 2 and 4 were to default at the same time, the net income from the Borrower Loan portfolio would fall from £25,220 to £15,422 per month. There would still be sufficient other income to cover the required monthly coupon payments of £15,000 due under the Bonds; and accordingly full coupon payments to Bondholders would be paid.

Scenario 3 – If all Borrower Loans were to default at the same time, the net income from the Borrower Loan portfolio would fall to £0. There would be a default scenario and action would be taken to recover the sums due from the Borrower Loans by the sale of the underlying collateral against which the Borrower Loans are secured. In this scenario the collateral would be realised by way of sale. The amounts owed to Bondholders would be repaid from the proceeds of the sale of the collateral. There would be a significant delay in the payments made to Bondholders in this scenario and there would be additional costs of such recovery action which may rank ahead of the Bondholders before payments are made to redeem the Bonds.

In any scenario the repayment claims of the Bondholders are contractually independent from the performance of the Borrower Loans; i.e. even in Scenario 3 the Bondholders remain to have a valid repayment claim against the Issuer.

Credit Risk Assessment – Default Scenarios

Each of the Borrower Loans has been assessed for credit risk. One of the six has been assessed as excellent, meaning there is little likelihood of default for the duration of the Borrower Loan. Four of the six in the portfolio have been assessed as good, meaning that default is unlikely in the first 18 months. One has been assessed as fair, meaning there is little likelihood of default in the first 6 months of the Borrower Loan but a small risk thereafter.

SECURITY

The Issuer's obligations under the Bonds are secured in the manner described below in "**The Issuer Security Structure**".

The requirements of the Collateral Manager under the Collateral Management Agreement are secured in the manner described below in "**The Collateral Security Structure**".

Where a Borrower Loan is secured, a Borrower's obligations to the Issuer pursuant to the Borrower Loan Agreements are secured in the manner described below in "**The Borrower Security Structure**".

Credit Enhancements

The Bonds will not be subject to any credit enhancements and the Issuer will rely on the repayments to be made by Borrowers pursuant to the Borrower Loans and the proceeds of any property disposals to ensure that the Issuer is able to meet its obligations under the Bonds and that there will be no material liquidity shortfalls for the duration of the maturity period of the Bonds. There are no economic interests retained by any originator of Loan Portfolios of any original Lending party.

Credit Committee

The credit committee will be staffed by the directors of the Collateral Manager and individuals appointed by the Collateral Manager (who will be employed by the Collateral Manager) (the "**Credit Committee**"). The Credit Committee will act on the Issuer's behalf in considering and approving which Borrower Loans will be procured using the net proceeds raised by the issue of that Series or Tranche of Bonds. The members of the Credit Committee will get a set remuneration fee of £1,000 per credit committee meeting.

In particular the Credit Committee will be appointed to:

1. Review each proposed Borrower Loan (and any previously approved Borrower Loan) to determine whether it meets the Borrower Loan Eligibility Criteria; and
2. Review the concentration risk of the Borrower Loans and to ensure there is maintained a minimum diversification of more than 5 Borrower Loans per Series of Bonds.

The Credit Committee will review each proposed Borrower Loan on a standalone basis or as part of the overall aggregate collateral pool, to ensure it is sufficient to produce funds for the Issuer to meet any payments due and payable on the Bonds on a rolling 12-month basis. The Credit Committee will have the right to review and receive reports on each approved Borrower Loan and has the right to advise the Issuer to substitute Borrower Loans with other Borrower Loans in order to comply with the Borrower Loan Eligibility Criteria or satisfy the minimum diversification criteria.

The Credit Committee will rely on an initial analysis, due diligence and assessment of the preliminary risks of each Borrower Loan, carried out by the Collateral Manager pursuant to the terms of the Collateral Management Agreement (as set out in the Overview of the Bonds section).

Prior to approving a Borrower Loan, the Credit Committee shall carry out an assessment of the risk profile of the relevant Borrower and the proposed Borrower Loan based upon various qualitative and quantitative factors, including an assessment of:

1. The Borrower's industry sector and any relevant macro-economic factors;
2. The purpose for which the Borrower Loan is being sought and the capacity and sources of funds for repayment;
3. In the case of a project loan, the viability of the underlying project;
4. The credit history of the Borrower;
5. The proposed terms and conditions and covenants of the Borrower Loan; and
6. The availability of security for the Borrower Loan and the adequacy and enforceability of such security.

The initial chairman of the Credit Committee will be Paul Hole. He will be assisted from time to time by other suitably experienced or qualified individuals for the purposes of assessing the quality and suitability of procurement opportunities available to the Issuer through the Collateral Manager.

Borrower Loan Procurement

Under the terms of the Collateral Management Agreement the Collateral Manager shall be responsible for Borrower Loan procurement by way of relationships with brokers and introducers.

The directors of the Collateral Manager, have numerous years of combined industry experience, over which they have developed a trusted contact based nationally, including but not limited to brokers, fund managers, institutions, solicitors and administrators alike all of which have an expanding client bank of prospective borrowers who require loans that would satisfy the Borrower Loan Eligibility Criteria.

The proposed members of the Credit Committee and the directors of the Collateral Manager have experience not only from lending personal funds but also from completing transactions across a multitude of asset classes allowing them to understand not only the procurement criteria but also more importantly the risks associated.

The directors and senior management team of the Collateral Manager have developed a substantial and trusted contact base nationally over the past three decades and will source prospective Borrower Loans which satisfy the Borrower Loan Eligibility Criteria.

BACKGROUND TO THE TRUSTEE

City Partnership Trustee Limited is an independent third-party provider of trustee and registrar services to listed and private companies and funds. It is one of the companies in the City Partnership group, and will provide services to the Issuer as trustee on behalf of the Bondholders, to act as the main intermediary between the Issuer and the Bondholder and to provide a safeguard on behalf of the Bondholders in the event the Issuer was not performing by holding security over the Issuer's assets.

The City Partnership group provides the following services: registrar and receiving agent services; corporate administration, compliance and governance services; security trustee & escrow agent services; accounting services; fund administration services; corporate communications services; and software development services. Its clients include: quoted companies, unquoted companies, limited partnerships and charities; investment companies; (S)EIS Funds; and Inheritance Tax Schemes.

At the date of this Base Prospectus, City Partnership Trustee Limited is acting as security trustee in excess of twenty loan note or bond offers.

THE ISSUER SECURITY STRUCTURE

Under a deed of charge dated 21 June 2023 regarding this Base Prospectus between the Issuer and City Partnership Trustee Limited (the "Trustee") (the "Trust Deed"), the obligations of the Issuer

under a Series of Bonds will be secured in favour of the Trustee (for the benefit of the Bondholders (the trustee and the Bondholders being the "**Issuer Secured Creditors**")) by fixed first priority security over the proceeds of such series deposited by the Custodian Account and all of the Collateral Manager's rights under the Collateral Management Agreement (the "**Issuer Security**") governed by arrangements in the Security Trust Deed.

Pursuant to the Trust Deed dated 21 June 2023, the Issuer Secured Creditors shall have recourse only to the Issuer Security and upon realisation by the Trustee of such Issuer Security where the net proceeds are insufficient for the Issuer to make all payments due to the Issuer Secured Creditors, the Issuer Secured Creditors shall not be entitled to take any further steps against the Issuer to recover any further sums owed to them.

The proceeds of any issuance of Bonds by the Issuer will be held by the Custodian Account (see below) until such time as it is advanced by the Issuer to procure Borrower Loans. It is intended that the procurement of a Borrower Loan portfolio will be simultaneous with the receipt of the proceeds of the issuance of Bonds. By granting the Issuer Security to the Trustee for the benefit of the Issuer Secured Creditors, the rights of the Issuer Secured Creditors to the Issuer Security shall rank first in priority to other creditors in the event of the insolvency of, or an insolvency related event occurring to, the Issuer. The rights of the Issuer Secured Creditors will not be affected by the insolvency or an insolvency related event of any other entity affiliated to the Issuer. The pool of assets would be governed by the law of England and Wales.

Each Series and Tranche of Bonds will be fully collateralised. This will be a requirement under the Collateral Management Agreement and will also be possible due to the loan-to-value of each Borrower Loan being not more than 90%. It is noted however that there will be periods where the money raised from each Series or Tranche of Bonds will not be fully deployed due to the Collateral Manager finalising Borrower Loans (i.e. closing the acquisition process of the loans that are being procured) and in instances where Borrower Loans have been repaid. However, during these periods the cash that is not deployed will be held by the Custodian. In these instances, the cash held by the Custodian will be considered an asset backing the Bonds, though the Collateral Manager, on behalf of the Issuer, will ensure that this type of asset will never be more than 20% of the assets backing a Series of Bonds.

THE COLLATERAL SECURITY STRUCTURE

The requirements of the Collateral Manager under the Collateral Management Agreement will be secured by the Collateral Manager granting a legal charge and/or assignment over its fixed and intangible assets and undertaking including all of its rights, if any from time to time, as collections agent, under each Borrower Loan Agreement (the "**Collateral Security**"). This security will be granted in favour of the Collateral Security Trustee.

Under the Collateral Management Agreement, the Collateral Manager shall be required, as collections agent, to make payments to the Issuer at such times and in such amounts to enable the Issuer to satisfy its payment obligations under each relevant Tranche of Bonds issued. Interest payments and principal repayments collected by the Collateral Manager from Borrowers under the Borrower Loans will be paid by the Collateral Manager to the Issuer under the Collateral Management Agreement.

The Collateral Security Trustee will hold the benefit of Collateral Security on trust for the Issuer (and ultimately for the Bondholders) pursuant to a security trust deed between the Collateral Manager, the Issuer and the Collateral Security Trustee (the "**Collateral Security Trust Deed**"). In the event that the Collateral Manager is in breach of the Collateral Management Agreement then this will, in certain circumstances, give the Collateral Security Trustee the right to enforce the Collateral Security in favour of the Issuer (and ultimately, the Bondholders). Enforcement of the Collateral Security will enable the Collateral Security Trustee to appoint receivers to deal with the relevant assets to which the Collateral Security relates, including receipt of payments from Borrowers under Borrower Loans.

The Collateral Security Trust Deed provides that the Collateral Security Trustee holds the benefit of the proceeds of enforcement of the Collateral Security first to meet the liabilities of the Collateral Trustee and, second to discharge the requirements to the Issuer under the Collateral Management Agreement.

THE BORROWER SECURITY STRUCTURE

Where a Borrower Loan is secured under a deed of charge to be entered into between a Borrower, the Issuer and the Collateral Manager (the "**Borrower Security Trustee**") (each a "**Borrower Deed of Charge**"), the obligations of the Borrower in respect of a Borrower Loan will be secured in favour of the Borrower Security Trustee by a legal charge over the fixed and intangible property, undertaking and assets of the Borrower ("the **Borrower Security**").

The Borrower Security Trustee will hold the benefit of each Borrower Deed of Charge on trust for the Issuer pursuant to a security trust deed between the Issuer and the Borrower Security Trustee (the "**Borrower Security Trust Deed**").

The Borrower Security Trust Deed provides that the Borrower Security Trustee holds the benefit of the proceeds of enforcement of any Borrower Deed of Charge first to meet the liability of the Borrower Security Trustee and, second, to discharge the obligations due to the Issuer.

Each Borrower Deed of Charge will contain customary representations and warranties from the Borrower to the Borrower Security Trustee, including without limitation, representations and warranties as to the ownership by the Borrower of its assets, that such assets are free from other security, that there are no adverse claims against such assets, that the Borrower has complied with all relevant laws in respect of those assets and that the security being granted under the Borrower Deed of Charge is enforceable.

CUSTODIAN ACCOUNT

Global Custodial Services Ltd will act as Custodian and arrange for the opening of no fewer than two bank accounts (the "**Custodian Accounts**") into which the net proceeds of any issuance of Bonds will be deposited pending the procurement of a Borrower Loan to a Borrower pursuant to a Borrower Loan Agreement and into which payments by Borrowers are made under the Borrower Loan Agreements.

ELIGIBILITY CRITERIA FOR FINAL TERMS ISSUANCE

The Issuer employs strict assessment criteria when considering acquiring a portfolio of Borrower Loans to ensure that there is sufficient collateral held by way of security compared to the sums advanced for the procurement of the Loans. The Issuer will only use institutional grade surveyors, solicitors with a minimum level of professional indemnity insurance and number of partners and drawdown of funds will only take place once all the security, anti-money laundering and due diligence procedures have been competently completed in accordance with the Credit Committee's requirements.

FINAL TERMS

In this section the expression "necessary information" means, in relation to a Tranche of Bonds, the information necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profits and losses and prospect of the Issuer and of the rights attaching to the Bonds. In relation to the different types of Bonds which may be issued under the Programme the Issuer has included in this Base Prospectus all of the necessary information except for information relating to the Bonds which is not known at the date of the Base Prospectus and which can only be determined at the time of an individual issue of a Tranche of Bonds.

Any information relating to the Bonds which is not included in this Base Prospectus and which is required in order to complete the necessary information in relation to a Tranche of Bonds will be contained either in the relevant Final Terms.

Final Terms

For a Tranche of Bonds which is the subject of Final Terms, those Final Terms will, for the purposes of that Tranche only, complete this Base Prospectus and must be read in conjunction with this Base Prospectus. The terms and conditions applicable to any particular Tranche of Bonds which is the subject of Final Terms are the Conditions described in the relevant Final Terms.

Collateral

Final Terms will be used for each Tranche of Bonds where the proceeds are used by the Issuer or the Collateral Manager, on its behalf, to procure Borrower Loans of various sized companies for business purposes, where Borrower Security will consist of one or more of the following types of security:

1. A legal charge over commercial or residential property in circumstance where no new or updated report is required as part of the Collateral Manager's due diligence in relation to any real property forming part of the Borrower Security.

A legal charge gives the Borrower Security Trustee the right to take control of and deal with or dispose of the property the subject of the legal charge in the event of default by the Borrower under the Borrower Loan.

2. An assignment of rental income in respect of commercial or residential property.

An assignment of rental income provides the Borrower Security Trustee (on behalf of the Issuer) with the benefit of and right to receive the Rental Income and also the ability to bring proceedings against the underlying tenant to enforce its rights.

3. A Charge over certain specific assets of the Borrower.

A charge over certain assets provides the Borrower Security Trustee with the right to take control of and deal with or dispose of the particular asset the subject of the charge in the event of default by the Borrower under the Borrower Loan which gives the Borrower Security Trustee the right to enforce the security created.

4. A debenture/deed of charge over the entire undertaking of the Borrower.

A debenture/deed of charge can create security over a range of assets of the Borrower including mortgages over properties, fixed charges over a range of other assets and assignments by way of security over the benefit of contracts and insurance policies together with a floating charge over assets not otherwise mortgaged, charged or assigned. The Borrower Security Trustee will be able to take control of and deal with or dispose of assets secured under a debenture/deed of charge in the event of default by the Borrower under the Borrower Loan which enables to the Borrower Security Trustee to enforce its security.

In each instance the security given by the Borrower will be held by the Borrower Security Trustee. To clarify, diversification of the loan portfolio will be maintained.

BORROWER LOAN ELIGIBILITY CRITERIA

In respect of Borrower Loans procured from the proceeds raised from a Tranche of Bonds issued pursuant to Final Terms, each Borrower Loan must satisfy the following "**Borrower Loan Eligibility Criteria**":

- (a) It is an obligation that is secured by assets of the borrower or guarantor thereof (if and to the extent security over such assets is permissible under applicable law (save in the case of assets so numerous or diverse that the failure to take such security is consistent with reasonable

secured lending practices) and such security is granted under English law or the law of the jurisdiction where that asset is located (a "**Secured Loan**");

- (b) It is denominated in either Sterling, Euro or United States Dollars;
- (c) It is an obligation of a Borrower or Borrowers having, in the case of an individual, their primary residence and, in the case of a company or partnership, their registered office address and principal place of business, in the United Kingdom or any jurisdiction of the European Union;
- (d) It is an obligation in respect of which (i) payments will not be subject to withholding tax imposed by any jurisdiction including where this is pursuant to the operation of an applicable tax treaty subject to the completeness of any procedural formalities or (ii) the borrower is required to make "gross-up" payments to the Collateral Manager, on behalf of the Issuer, that cover the full amount of any such withhold on an after-tax basis;
- (e) With the exception of property development loans, it is an obligation that pays or compounds interest no less frequent than annually at a rate which, when aggregated with all other Borrower Loans on a rolling 12 month basis, produces funds to the Issuer sufficient to service any payments due and payable on the Bonds (There is an underlying obligation on the Collateral Manager to ensure that property development loans amount to less than 20% of the loan portfolio so to ensure that the Issuer is able to service payments due and payable on the Bonds issued);
- (f) It is not an obligation in respect of which interest payments are scheduled to decrease;
- (g) It is not convertible into equity;
- (h) It is an obligation which has a loan-to-value ratio in relation to the principal amount of the Borrower Loan equal to or below 90% (e.g. that means the overall value of the security against which the loans are secured must be over 10% higher than the principal amount of the Borrower Loan), and where that Borrower Loan is secured against real property a valuation of the property and cash flow/income streams);
- (i) It will not result in the imposition of stamp duty or stamp duty reserve tax payable by the Issuer;
- (j) It must require the consent of the Issuer to the Borrower there under for any change in the principal repayment profile or interest applicable on such obligation for the avoidance of doubt, excluding any changes originally envisaged in the loan documentation;
- (k) It is capable of being, and will be the subject of a security interest in favour of the Borrower Security Trustee;
- (l) It will not result in the imposition of any present or future, actual or contingent, monetary liabilities or obligations of the Issuer other than those (i) which may arise at its option; or (ii) which are fully secured; or (iii) which are subject to limited recourse provisions; or (iv) which may arise as a result of an undertaking to participate in a financial restructuring of a Secured Loan where such undertaking is contingent upon the redemption in full of such Secured Loan on or before the time by which the Issuer is obliged to enter into the restructured Secured Loan and where the restructured Secured Loan satisfies the Borrower Loan Eligibility Criteria; and
- (m) It has a maturity date that is no later than the latest Maturity Date of all Bonds outstanding.

The Borrower Loan Eligibility Criteria is designed, among other things, to ensure that the Borrower Loans which back a Series of Bonds have characteristics that demonstrate capacity to produce funds to service any payments due and payable on the Bonds of that Series. For example, one requirement, is that, with the exception of development loans a Series of Bonds to a Borrower pays interest no less frequently than annually at a rate which, when aggregated with all Borrower Loans on a rolling 12 month basis issued under the Series, produces funds sufficient to enable the Collateral Manager to make sufficient payments to the Issuer, as collections agent, so it is able to service all payments due and payable on the Bonds issued under that Series. Development loans shall always make up less

than 20% of the loan portfolio to ensure the Collateral Manager is able to make sufficient payments to the Issuer to enable it to service payments due and payable on the Bonds issued.

The subsequent failure of a Borrower Loan to satisfy any of the Borrower Loan Eligibility Criteria shall not prevent any obligation which would otherwise be required to be performed nor shall it stop that loan from being a Borrower Loan so long as such obligation satisfied the Borrower Loan Eligibility Criteria when the Issuer entered into the relevant Borrower Loan Agreement.

FORM OF THE BONDS

Each Tranche of Bonds will be in the form of a global Bond at fixed interest rates (in each case as specified in the relevant Final Terms) in registered form (a "**Global Registered Bond**"), in each case as specified in the relevant Final Terms, whereby the fixed interest rates are varying with a minimum interest rate of 0,001%.

The Bonds will not constitute securitizations within the meaning of the STS Regulation (Regulation (EU) 2017/2402). Whether or not the Bonds are intended to be held in a manner which would allow Eurosystem eligibility will be set out in the relevant Final Terms. Note that the designation "**Yes**" in the relevant Final Terms means that the Bonds are intended upon issue to be deposited with one of the ICSDs acting as common safekeeper and does not necessarily mean that the Bonds will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria being amended in the future such that the Bonds are capable of meeting them, the Bonds may then be deposited with one of the ICSDs as common safekeeper and registered in the name of a nominee of one of the ICSDs acting as common safekeeper. Note that this does not necessarily mean that the Bonds will then be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem at any time during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.

The notice of any change in any of the Agents or in their Specified Offices shall promptly be given to Bondholders in accordance with Condition 17 (Notices).

In addition, the Trustee may, without the consent of the Bondholders, authorise or waive any proposed breach or breach of the Bonds, these Conditions or the Trust Deed (other than a proposed breach or breach relating to the subject of a Reserved Matter) if, in the opinion of the Trustee, the interests of the Bondholders would not be materially prejudiced thereby.

Unless the Trustee agrees otherwise, any such authorisation, waiver or modification shall be notified to the Bondholders as soon as practicable thereafter. Any such authorisation, waiver or modification shall be binding on the Bondholders.

15. Enforcement

- (a) It has been so requested in writing by the Holders of at least one quarter of the aggregate principal amount of the outstanding Bonds or has been so directed by an Extraordinary Resolution; and
- (b) It has been indemnified and/or secured and/or prefunded to its satisfaction.

Furthermore, the Trustee may also refrain from taking such action if it would otherwise render it liable to any person in that jurisdiction or if, in its opinion based upon such legal advice, it would not have the power to do the relevant thing in that jurisdiction by virtue of any applicable law or in that jurisdiction or if it is determined by any Court or other competent authority in this jurisdiction that it does not have such power.

16. Further Issues

The Issuer may from time to time, without the consent of the Bondholders or Couponholders and in accordance with the Trust Deed, create and issue further bonds having the same terms and conditions as the Bonds in all respects (or in all respects except for the first payment of interest) so as to be consolidated and form a single series with the Bonds. The Issuer may from time to time, without the consent of the Bondholders or Couponholders, incur, create or issue further secured or unsecured bonds or other Indebtedness. For the avoidance of doubt any further Bonds so issued shall be

This indemnity constitutes a separate and independent obligation of the Issuer and shall give rise to a separate and independent cause of action.

USE OF PROCEEDS

The Issuer will use the proceeds from each Tranche of Bonds issued by way of Final Terms to procure Borrower Loans and/or make any payments required to be made pursuant to any Transaction Documents in relation to that Tranche of Bonds.

In English Law, where a tranche of bonds has been redeemed in full, and there is surplus available, that surplus may be utilised by an issuer to service coupons or principle sums for other tranches or series of bonds. Unless specifically indicated the security granted over specified assets for one Tranche of Bonds may therefore legally be used to provide returns to any other Tranche of Bonds where there is a surplus available in relation to those assets.

DESCRIPTION OF THE ISSUER

Details of Independent Auditors

AGK Partners, Chartered Accountants & Statutory Auditors, 1 Kings Avenue, N21 3NA ("**AGK**") have been appointed as the independent auditors of the Issuer and have audited the financial statements for the fiscal years ending on 30 June 2021 and on 30 June 2022 in accordance with International Financial Reporting Standards (IFRS) (the Issuer's financial statements have been prepared under reporting standards known as FRS 102 in the United Kingdom, but the Issuer has not taken advantage of certain reduced disclosure obligations allowed for small companies under FRS 102, so the statements required in accordance with IFRS on profit and loss, cash flow and changes in equity which form part of the Issuer's financial statements are prepared in accordance with IFRS. As such where, for relevant items, the accounting treatment of items could differ in the Issuer's financial statements under FRS 102 and IFRS, the actual treatment means they do not differ. The Issuer has taken advantage of an exemption available under FRS 102 (section 33.1A) from the requirement to disclose transactions with wholly owned members of the group.). AGK issued an unqualified auditors' opinion for the financial statements for the fiscal years ending on 30 June 2021 and on 30 June 2022.

AGK is a member of the Institute of Chartered Accountants in England and Wales.

The information set out below is subject to any change in or reinterpretation of the rules, regulations and procedures of Euroclear, Clearstream, Luxembourg or CREST (together, the "**Clearing Systems**") currently in effect. Investors wishing to use the facilities of any of the Clearing Systems are advised to confirm the continued applicability of the rules, regulations and procedures of the relevant Clearing System. None of the Issuer, the Dealers, the Trustee and any other party to the relevant agency agreement will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Bonds or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

CREST

Bonds issued under the Programme may be settled and transferred through Euroclear UK & Ireland Limited (formerly known as CREST Co Limited) ("**CREST**") in accordance with the Uncertificated Securities Regulations 2001 (SI 2001/3755) (the "**Regulations**"). Dealing in the Bonds in advance of the crediting of the relevant CREST accounts will be at the risk of the person concerned. 1. authorise the Registrar to credit the CREST account specified with the number of Bonds for which the application is accepted;

TAXATION

The following is a general description of certain United Kingdom and European tax considerations relating to the Bonds. It does not purport to be a complete analysis of all tax considerations relating to the Bonds, whether in those countries or elsewhere. Prospective purchasers of Bonds should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of Bonds and receiving payments of interest, principal and/or other amounts under the Bonds and the consequences of such actions under the tax laws of those countries. This summary is based upon the law as in effect on the date of this Base Prospectus and is subject to any change in law that may take effect after such date.

The tax legislation of the Investor's Member State and of the Issuer's country of incorporation may have an impact on the income received from the Bonds.

UNITED KINGDOM

The following applies only to persons who are the beneficial owners of Bonds and is a summary of the Issuer's understanding of current United Kingdom law and published HM Revenue and Customs ("HMRC") practice in the United Kingdom relating to United Kingdom withholding tax treatment of payments of principal and interest in respect of Bonds. It does not deal with any other United Kingdom taxation implications of acquiring, holding or disposing of Bonds. The United Kingdom tax treatment of prospective Bondholders depends on their individual circumstances and may be subject to change in the future (possibly with retroactive effect). Prospective Bondholders who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.

Interest on the Bonds

Payments of interest on the Bonds may be made without deduction of or withholding on account of United Kingdom income tax provided that the Bonds continue to be listed on a "**Recognised Stock Exchange**" within the meaning of section 1005 of the Income Tax Act 2007. The Market is a recognised stock exchange. Securities will be treated as listed on the Market if they are included in the Official List and admitted to trading on the Market. Bonds to be traded on any other recognised stock exchange if (and only if) they are admitted to trading on that exchange and they are officially listed, in accordance with provisions corresponding to those generally applicable in European Economic Area states, in a country outside the United Kingdom in which there is a recognised stock exchange. Provided, therefore, that the Bonds remain listed on a recognised stock exchange, interest on the Bonds will be payable without withholding or deduction on account of United Kingdom tax.

Interest on the Bonds may also be paid without withholding or deduction on account of United Kingdom tax where interest on the Bonds is paid by a company and, at the time the payment is made, the Issuer reasonably believes (and any person by or through whom interest on the Bonds is paid reasonably believes) that the beneficial owner is within the charge to United Kingdom corporation tax as regards the payment of interest; provided that HMRC has not given a direction (in circumstances where it has reasonable grounds to believe that the above exemption is not available in respect of such payment of interest at the time the payment is made) that the interest should be paid under deduction of tax.

Interest on the Bonds may also be paid without withholding or deduction on account of United Kingdom tax where the maturity of the Bonds is less than 365 days from the date of issue and those Bonds do not form part of a scheme or arrangement of borrowing intended to be capable of remaining outstanding for more than 364 days.

In other cases, an amount must generally be withheld from payments of interest on the Bonds on account of United Kingdom income tax at the basic rate (currently 20%). However, where an

application double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Bondholder, HMRC can issue a notice to the Issuer to pay interest to the Bondholder without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty). Where withholding of taxes at source may be required, the Issuer shall arrange for the withholding of such taxes from payments to Bondholders.

Other Rules Relating to United Kingdom Withholding Tax

Bonds may be issued at an issue price of less than 100% of their principal amount. Any discount element on such Bonds should not be subject to any United Kingdom withholding tax pursuant to the provisions mentioned in the paragraph headed "**Interest on Bonds**" above, but may be subject to reporting requirements as outlined under the paragraphs headed "**Provision of Information**" and "**EU Savings Directive**" below.

Where interest has been paid under deduction of United Kingdom income tax, Bondholders who are not resident in the United Kingdom for United Kingdom tax purposes may be able to recover all or part of the tax deducted subject to an appropriate provision in any applicable double taxation treaty and the laws of the jurisdiction in which the Bondholder is resident for tax purposes.

The references to "**interest**" above mean "**interest**" as understood in United Kingdom tax law. The statements above do not take any account of any different definitions of "**interest**" or "**principal**" which may prevail under any other law or which may be created by the Terms and Conditions of the Bonds or any related documentation. Bondholders should seek their own professional advice as regards the withholding tax treatment of any payment on the Bonds which does not constitute "**interest**" or "**principal**" as those terms are understood in United Kingdom tax law.

Provision of Information

Bondholders should note that, in certain circumstances HMRC has power to obtain information (including the name and address of the beneficial owner of the interest) from any person in the United Kingdom who either pays or credits interest to or receives interest for the benefit of the Bondholder. In certain circumstances, the information so obtained may be passed by HMRC to the tax authorities of certain other jurisdictions.

The provisions referred to above may also apply, in certain circumstances, to payments made on redemption of any Bonds which constitute "**deeply discounted securities**" for the purposes of section 430 of the Income Tax (Trading and Other Income) Act 2005 (although, in this regard, HMRC published guidance for the year 2012/2013 indicates that HMRC will not exercise its power to obtain information in relation to such payments in that year).

Information may also be required to be reported in accordance with regulations made pursuant to the EU Savings Directive (see below).

EU SAVINGS DIRECTIVE

Under the EU Savings Directive, each Member State is required to provide to the tax authorities of another Member State details of payments of interest or other similar income paid by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity established in that other Member State. However, for a transitional period, Austria and Luxembourg are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to exchange of information with certain other countries).

A number of non-EU countries, and certain dependent or associate territories of certain Member States, have adopted similar measures (a withholding system in the case of Switzerland).

The European Commission has proposed certain amendments to the Directive, which may, if implemented, amend or broaden the scope of the requirements described above.

SUBSCRIPTION AND SALE

Bonds may be sold from time to time by the Issuer to any entity or entities appointed from time to time as a dealer (the "**Dealers**").

If in the case of any Tranche of Bonds where the method of distribution is an agreement between the Issuer and a single Dealer, the Tranche shall be issued by the issuer and subscribed by that Dealer.

Any such agreement will, inter alia, make provision for the form and terms and conditions of the relevant Bonds, the price at which such Bonds will be subscribed by the Dealer(s), the commissions or other agreed deductibles (if any) payable or allowable by the Issuer in respect of such subscription and whether or not the issue of the Bonds is underwritten by the Dealer(s).

United States of America: Regulation S Category; TEFRA D or TEFRA C as specified in the relevant Final Terms or neither if TEFRA (United States Tax Equity and Fiscal Responsibility Act of 1982) is specified as not applicable in the relevant Final Terms.

Terms used in this paragraph have the meanings given to them by Regulation S.

Each Dealer has agreed that it will not offer, sell or deliver Bonds, (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution of the Bonds comprising the relevant Tranche, as certified to the Principal Paying Agent or the Issuer by such Dealer (or, in the case of a sale of a Tranche of Bonds to or through more than one Dealer, by each of such Dealers as to the Bonds of such Tranche purchased by or through it, in which case the Principal Paying Agent or the Issuer shall notify each such Dealer when all such Dealers have so certified) within the United States of America or to, or for the account or benefit of, U.S. persons, and such Dealer will have sent to each dealer to which it sells Bonds during the distribution compliance period relating thereto a confirmation or other notice setting forth the restrictions on offers and sales of the Bonds within the United States of America or to, or for the account or benefit of, U.S. persons.

In addition, until 40 days after the commencement of the offering of Bonds comprising any Tranche, any offer or sale of Bonds within the United States of America by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

Issue Price and Yield

Bonds may be issued at any price. The issue price of each Tranche of Bonds to be issued under the Programme will be determined by the Issuer at the time of issue in accordance with prevailing market conditions and the issue price of the relevant Bonds will be set out in the applicable Final Terms. In the case of different Tranches of a Series of Bonds, the issue price may include accrued interest in respect of the period from the interest commencement date of the relevant Tranche (which may be the issue date of the first Tranche of the Series or, if interest payment dates have already passed, the most recent interest payment date in respect of the Series) to the issue date of the relevant Tranche.

The yield of each Tranche of Bonds set out in the applicable Final Terms will be calculated as of the relevant issue date on an annual or semi-annual basis using the relevant issue price. It is not an indication of future yield.

Representation of Bondholders

In general, all rights attached to the Bonds under the Programme must be asserted by the Bondholders or their representatives directly vis-à-vis the Issuer at its seat during usual business hours or in writing or before the competent courts. A representation of the Bondholders will not be organized by the Issuer.

It may not always be possible for the Trustee to take certain actions, notwithstanding the provision of an indemnity and/or security and/or pre-funding to it. Where the Trustee is unable to take any action, the Bondholders are permitted by the Conditions and the Trust Deed to take the relevant action directly.
